

KIP 5000 SERIES

THE KIP 5000 SERIES IS A RANGE OF VERSATILE DIGITAL IMAGING SYSTEMS DESIGNED TO PROVIDE A COMBINATION OF PEAK DEMAND PRODUCTIVITY AND SUPERIOR IMAGE QUALITY TO SATISFY DEMANDING DOCUMENT IMAGING ENVIRONMENTS.

## KIP 5000 Print Systems

The KIP 5000 network printer is designed to provide a combination of peak demand productivity and superior print quality. The system efficiently produces documents sent via application drivers, network PCs or over the internet. The KIP 5000 meets the toughest printing demands and may be easily upgraded to handle copying and scanning requirements in virtually any digital imaging environment.

**KIP 5000 Print Systems Features:** ■ Prints 8 'D', A1 size sheets per minute at 600 x 600 dpi resolution ■ 100% toner efficient operation from 2 or 4 media rolls ■ Integrated touch screen display provides advanced system management ■ KIP software and application drivers included with each system

*The modular concept of KIP 5000 systems enables multiple configuration possibilities to suit any wide format document workflow environment.*

### KIP 5000 Print, Copy & Scan Systems

The KIP 5000 system performs the full range of monochrome and color scanning applications, providing the capability to scan all types of documents for use at network PCs or copy directly to inkjet printers. In addition, monochrome technical documents containing lines, text, greyscales and graphic images are quickly and accurately printed, copied or scanned by the KIP 5000.

### KIP 5000 Print, Copy & Scan Systems

**Features:** ■ Single, space saving system footprint with no need for additional PCs ■ Create color copies directly to inkjet printers ■ Scan documents into a wide range of monochrome and color file formats ■ Image presets with real time copy and scan previews provide maximum quality control

### KIP 5200 Production System

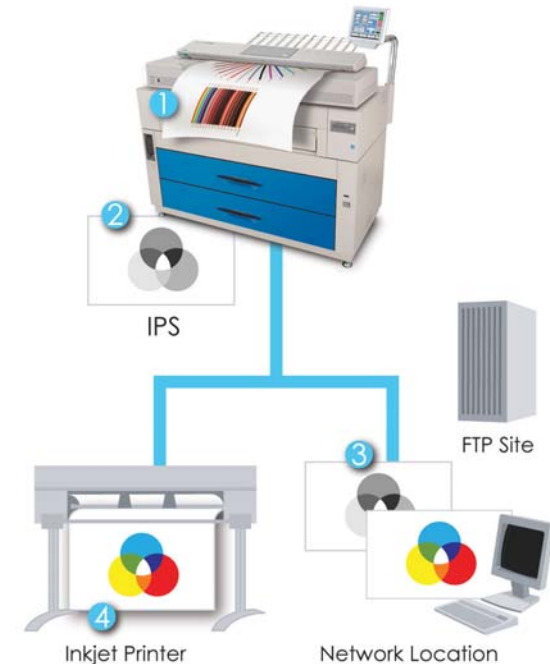

The KIP 5200 system is a professional grade monochrome print and mono/color copy & scan solution that provides high demand users with the ultimate in imaging technology. Featuring a full suite of production printing, copying and scanning software, the KIP 5200 system expertly performs all monochrome and color imaging applications. Thanks to a robust document imaging system, complex graphics and photos are reproduced as accurately and efficiently as simple line drawings.

### KIP 5200 Production System Features:

■ Color scan speeds up to 3.4" per second! ■ Monochrome scan speeds up to 9.6" per second! ■ High resolution, 24-Bit color image quality ■ Copy directly to inkjet printers or create color digital files ■ Easy system calibration process ensures color copy and scan accuracy ■ Increase system functionality with KIP Color Max software

### KIP 5000 Imaging Workflow

- 1 Document is inserted into scanner to begin the imaging process
- 2 Monochrome copies are produced by KIP 5000 System
- 3 Monochrome or color documents are scanned to network locations or FTP sites
- 4 Direct color copies are produced by integrated inkjet printer

## KIP IPS SOFTWARE IS POWER AT YOUR FINGERTIPS!

The KIP Image Processing Software Suite is comprised of printing and scanning applications available at the KIP 5000 operator panel, on network PC workstations and over the internet for a powerful and easy-to-use work environment.

## KIP 5000 SERIES IPS SOFTWARE SUITE

### KIP Image Processing Software Suite

The KIP Image Processing System is a combination of processing power and flexible software applications designed for maximum productivity and ease-of-use. Applications are available on PC workstations, over the internet and at the KIP 5000 touch screen operator panel, providing a uniform user interface across the entire KIP digital product range. All applications have been designed to provide exceptional versatility, fast file processing and efficient use of network resources to maintain high productivity.

### KIP PrintNET

KIP PrintNET is a true web-based print utility that benefits users with versatile viewing, printing, job queue management and system administration features without the need to install any software applications on network PCs. Users may select and send single or multiple files to KIP digital systems via a local network or the internet. In addition, KIP PrintNET generates customizable E-mail reports detailing all system usage on demand or at preset intervals. These reports contain data compatible with spreadsheet applications for easy customization and analysis.

**KIP PrintNET Key Features:** ■ The integrated PrintNET viewer displays accurate graphics, photos and fine lines ■ Create print jobs from Windows, Apple, Novell and Unix/Linux based web browsers ■ User name and password authentication system designed for maximum network security ■ Apply printing preferences on a per-file basis or to a complete print job ■ Accurate individual, departmental and project specific accounting information ■ Operates in mixed environments of client PC operating systems

*Integrated and Powerful Wide Format Imaging Software*

## KIP Request

KIP Request network printing software is an easy-to-use application designed to provide network users with a fast and accurate means of producing high quality prints from all types of file formats. Every aspect of KIP Request is centered on efficient workflow, providing complete command of a host of powerful printing and print management tools. Users may preview print jobs, make image adjustments, set document folding parameters, enter accounting data, manage the print queue and send files to various KIP printers on the network via a single interface.

## Microsoft Certified KIP Windows® Driver

The KIP Windows driver is WHQL certified for 64 and 32 bit Windows Vista, XP and Server 2003, meaning the KIP Windows driver meets explicit standards of reliability and quality. The KIP Windows driver has been tested and proven to deliver a superior experience when running a PC with Microsoft Windows operating systems.

## AutoCAD® Driver

KIP AutoCAD driver enables printing directly from AutoCAD applications. To assist in making printing decisions, two-way printer status allows users to view media information and system status. The KIP AutoCAD driver is compatible with AutoCAD software versions 2004 and up.

## DWF File Processing

The DWF® file format from Autodesk may be quickly printed by the KIP 5000. DWF files contain dynamic information to ensure the highest levels of productivity and print quality to the complete cycle of design and construction documentation.

## Postscript & PDF File Processing

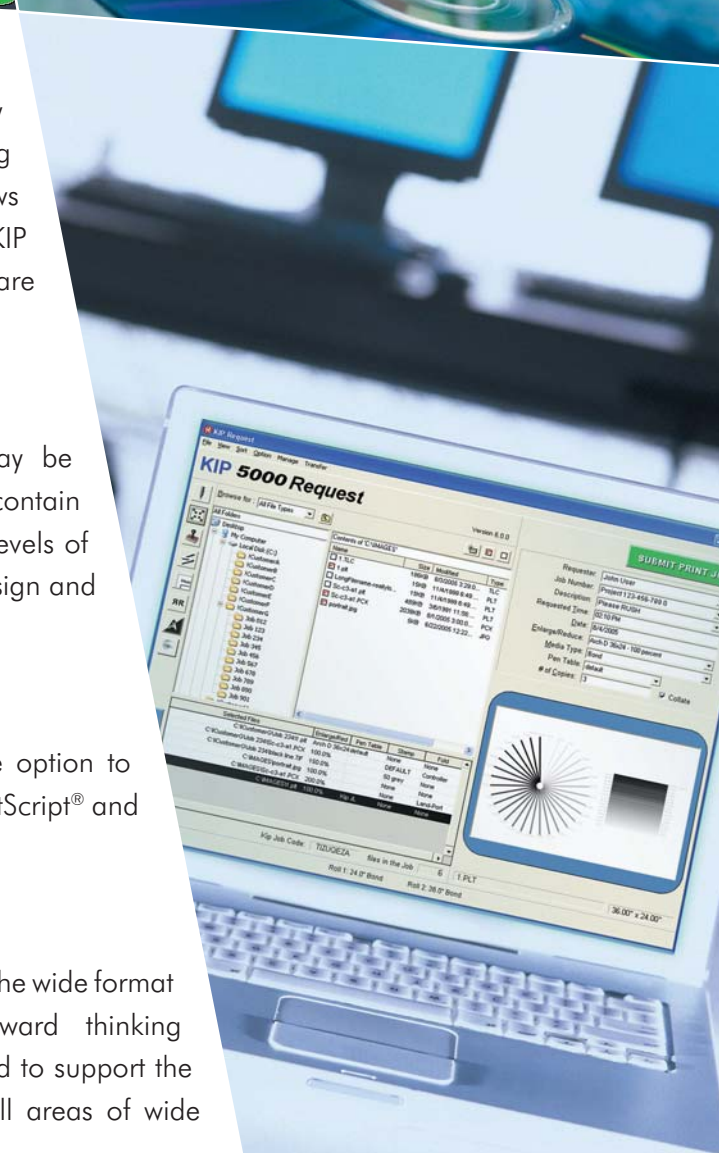

The KIP 5000 provides operators with the option to quickly and effectively interpret complex PostScript® and PDF® files into wide format prints.

## Integrated Workflow Solutions

KIP has developed vendor associations in the wide format printing industry with innovative, forward thinking providers of software solutions. Optimized to support the KIP 5000, these integrated workflow solutions cover all areas of wide format document production and workflow management.

### Easy Administration

The KIP 5000 operator panel provides users with all local system functions via the touch screen graphical user interface (GUI). In addition to the thoughtfully designed interface, users and administrators benefit from an array of sophisticated but easy-to-use job queue management and accounting tools all designed to meet today's most challenging network security demands.

## KIP 5000 SERIES SYSTEM OPERATIONS

### KIP IPS

The KIP Image Processing System is a combination of processing power and flexible software applications designed for maximum productivity and ease-of-use. Applications are available on PC workstations, over the internet and at the KIP 5000 touch screen operator panel, providing a uniform user interface across the entire KIP digital product range. All applications have been designed to provide exceptional versatility, fast file processing and efficient use of network resources to maintain high productivity.

### Automated Metering System

All KIP printing, copying, and scanning applications are connected via an integrated system designed to record and account the use of all system functions. Customizable reports detailing total system usage are delivered via E-mail on demand or at designated intervals.

### Easy Administration

In addition to the thoughtfully designed interface, users and administrators benefit from an array of sophisticated, easy-to-use queue management and accounting tools designed to meet today's most challenging network security demands.

### Information Center

The KIP 5000 is configured to display contact information specific to the KIP authorized service provider. This feature is designed to assist operators when requesting consumables, service calls and system upgrades.

### System Guides

The KIP 5000 operator panel displays illustrated guides to explain system operations including mono/color copy and scan-to-file functions. In addition, step-by-step media and toner replacement procedures are automatically displayed when necessary to provide users with system instructions.

The KIP System Guide is available at the KIP 5000 operator panel and downloadable via KIP PrintNET to assist operators by providing a quick reference resource for all KIP application features.

### System Upgrades

All KIP 5000 configurations are available as two or four roll systems. Each configuration may be easily field upgraded to provide new system features at any time, including mono/color scan-to-file and copy.

### KIPFold 5000

The KIPFold 5000 system automates document finishing requirements by providing folding, stacking and collation in a compact design. The system intelligently communicates with the KIP 5000 IPS and is fully integrated with all KIP copying and printing applications and drivers to provide seamless workflow integration.

### KIP 5000 Stacking Solutions

The KIP 5000 is compatible with a range of stacking solutions designed to deliver print output just the way you want it. Consistent, accurate and reliable KIP stackers deliver maximum document control with minimum effort. From simple print catchers to intelligent online stacking systems, KIP solutions can be easily tailored to suit your exact needs, while maintaining the flexibility to grow as demands increase.

### Stacking Solutions:

*KIP 200 Stacker*  
*Stacks up to 250 A-E size prints/copies*

*KIP 300 Stacker*  
*Stacks up to 350 A-E size prints/copies*

*KIP 1200 Stacker*  
*Stacks up to 1000 A-E size prints/copies*

## KIP 5000 Series System Configurations

### KIP 5000 PRINT SYSTEM

	Standard	Optional
